ABOUT SPEED AUTOMATION

Speed Automation is a leading provider of advanced industrial automation solutions. We design, develop and manufacture high-performance special purpose machines that deliver precision, reliability and efficiency for a wide range of industries.

With a strong focus on innovation and quality, we help our customers achieve higher productivity, improved performance and consistent results.

OUR VISION

To be a trusted global leader in industrial automation by delivering innovative, reliable and sustainable engineering solutions.

OUR MISSION

To provide cost-effective, technologically advanced and customized automation solutions that exceed customer expectations.

WHY CHOOSE SPEED AUTOMATION?

EXPERIENCED TEAM

Skilled engineers with extensive domain knowledge.

INNOVATIVE SOLUTIONS

Advanced, efficient and customized automation systems.

QUALITY ASSURANCE

Commitment to quality, precision and reliability.

END-TO-END SERVICE

From concept to commissioning and after-sales support.

IMPROVED PRODUCTIVITY

Solutions designed to increase efficiency and reduce cost.

CUSTOMER FOCUS

Customer satisfaction is at the heart of everything we do.

AT A GLANCE

10+
YEARS OF
EXPERIENCE

PRODUCTS & SOLUTIONS

We design and manufacture advanced automation solutions that ensure precision, reliability and maximum productivity for your operations.

AIR LEAK TESTING MACHINES

High precision leak testing solutions for diverse components and assemblies.

INDUSTRIAL WASHING MACHINES

Robust washing systems for superior cleaning and consistent performance.

WELDING MACHINES

Advanced welding solutions ensuring strong, consistent and reliable joints.

ASSEMBLY STATIONS

Ergonomic and efficient assembly stations for seamless operations.

FUNCTIONAL TESTING MACHINES

Reliable functional test systems to ensure product quality and performance.

AUTOMATED PRESSING MACHINES

High-performance pressing solutions for accurate and efficient operations.

AUTOMATION & SCADA SUPPORT

PLC, HMI, SCADA and automation support to enhance control and productivity.

**CUSTOMIZED SOLUTIONS
BUILT FOR YOUR NEEDS**

We understand your process and deliver automation solutions that drive efficiency, quality and growth.

SPEED AUTOMATION

AUTOMATE • INNOVATE • ACCELERATE

INDUSTRIES WE SERVE

We deliver customized automation solutions across diverse industries, helping businesses improve efficiency, quality and productivity.

AUTOMOTIVE

Advanced automation solutions for automotive manufacturing and assembly processes.

AUTO COMPONENTS

Precision engineered systems for auto component testing, assembly and manufacturing.

ENGINE MANUFACTURING

Reliable solutions for engine assembly, testing and quality assurance.

INDUSTRIAL MANUFACTURING

Automation systems designed to enhance productivity and operational efficiency.

SPECIAL PURPOSE MACHINES (SPM)

Custom-built SPMs tailored to meet unique process and production requirements.

TEST & MEASUREMENT APPLICATIONS

High-performance testing and measurement solutions for accurate results.

We partner with industries to build smarter, faster and more reliable automation solutions for a **better tomorrow.**

FEATURED PROJECTS

Innovative automation solutions delivering precision, quality and efficiency across industries.

01

FIAT FLOW TEST

High precision flow test system ensuring accuracy and reliability for critical components.

02

FIAT WASHING

Advanced washing solution designed for effective cleaning and consistent performance.

03

TGDI CYLINDER BLOCK LEAK TEST

Reliable leak testing system ensuring zero defects and maximum product quality.

04

TGDI CYLINDER HEAD LEAK TEST

Advanced leak test system for cylinder heads with high accuracy and repeatability.

05

TATA CYLINDER HEAD LEAK TEST

Precision engineered solution delivering consistent results for critical quality checks.

06

INTEGRATED LEAK TEST & WASHING LINE

Integrated leak test and washing line for improved efficiency and seamless operations.

Every project is a step towards smarter automation and a **stronger tomorrow.**

SPEED — AUTOMATION —

AUTOMATE • INNOVATE • ACCELERATE

MACHINES WE SUPPLIED

High performance machines designed and manufactured to deliver precision, reliability and **efficiency**.

01

ROBOTIC WASHING MACHINE

Advanced robotic washing solution for thorough cleaning and consistent performance.

02

SPOT WELDING MACHINE

Reliable spot welding systems ensuring strong, accurate and durable welds.

03

UNIVERSAL LEAK TEST MACHINE

Universal leak test solution for accurate detection and quality assurance.

04

RICO AUTO BUSH & PIN PRESS MACHINE

High precision bush and pin pressing machine for automotive applications.

05

CUMMINS HSG GEAR LEAK TEST MACHINE

Specialized leak test system for HSG gear ensuring zero leakage and high reliability.

06

BAJAJ CYLINDER HEAD COVER LEAK TEST MACHINE

Leak testing solution for cylinder head covers with high accuracy and efficiency.

Engineered for **performance**.
Built for **excellence**.

WHY CHOOSE SPEED AUTOMATION

We deliver smart, reliable and efficient automation solutions designed to help your business achieve higher productivity and quality.

INDUSTRIAL AUTOMATION EXPERTISE

Deep domain knowledge and hands-on experience in delivering advanced automation solutions across industries.

CUSTOMIZED AUTOMATION SOLUTIONS

Tailor-made solutions designed to meet your unique process requirements for maximum efficiency and performance.

AIR LEAK TESTING SPECIALIZATION

High precision air leak test systems ensuring quality, reliability and zero-defect products.

WELDING & WASHING MACHINE MANUFACTURING

Robust and reliable welding and washing machines built for consistent performance and long-term durability.

TEST & MEASUREMENT SOLUTIONS

Advanced test and measurement systems ensuring accurate data, quality control and process improvement.

ENGINEERING-FOCUSED APPROACH

Driven by engineering excellence, innovation and a commitment to delivering reliable and future-ready solutions.

Our focus is simple – to **automate** your processes, improve productivity and create long-term value for your business.
